Free repair manual for BSA Bantam Library D1 D3 D5 D7 D10 D14 Some of these service manuals are PDFs, some are compressed files so you may need third party software to open the manual. Feel free to leave a comments below, I cant promise to answer everyone but Ill certainly try! If a file has somehow made it through checking that you believe is your copy protected property simply contact me and it shall be removed immediately. Come and say hi on. It does not contain the information necessary to carry out complete stripping for major overhauls, but if any owner feels he is competent to carry out this type of work, a service manual and an illustrated, priced, spares catalogue for this machine can be. Frame Number—at top of steering head tube. ENGINE Model D1 Model D3 Model D5 Capacity. 123 c.c 148 c.c 174 c.c Cylinder bore. 52 mm. 57 mm. 61.5 mm. Stroke 58 mm. Normally these preparations will be carried out by the dealer who is selling the machine and the new owner has only to arrange the controls to his liking and the machine is ready for the road. Depression of the pedal rotates the engine. OTHER CONTROLS Petrol Tap This is located under the rear end of the tank. To turn on the petrol, pull the serrated button out and lock in position by turning anticlockwise. As the clutch engages open the throttle a little further. To Change Gear Up Disengage the clutch and immediately thereafter raise the gearchange pedal upwards to its limit, at the same time easing the throttle back. Engage the clutch and reopen the throttle together immediately after changing.

With the petroil lubrication system employed there is never a considerable quantity of liquid oil in the crankcase, but whatever oil there is should be drained away, and this is preferably done while the engine is warm immediately after a run, as the oil will flow more freely and carry with it any foreign matter which may have. Soak the mud first, and then float it off with copious supplies of clean water supplied either with a hose or a sponge. This is easily unscrewed and the cap and internal baffle removed for cleaning. Note when replacing the baffle unit that the copper sealing ring is in position before replacing the end cap. There is little to be gained by experimenting with

different plugs as the make and type fitted by us as official factory equipment is best suited to the requirements of the motor. The setting employed is suitable for a very wide range of climatic conditions, and it is highly improbable that the rider will need to modify it in any way. R E C O M M E N D E D L U B R I C A N T S Summer and Winter Mix one of the following oils with petrol in the ratio 1 20 unless otherwise shown. Clutch operation. Speedometer drive Rear suspension units plunger Contact breaker cam pad A FEW DROPS OF ENGINE OIL AGES Saddle nose bolt except with dual seat Brake pedal Stand fulcrum. Still holding the locknut with a spanner, screw the adjusting pin gently in until it is felt to meet some resistance. Then unscrew it half a turn and holding it in this position retighten the locknut. The clutch springs must be compressed by pressing on the outer plate until the circlip retaining the spring pressure plate can be removed. First slacken off the knurled rear brake adjusting nut, as the brake rod may prevent free movement of the wheel. It is not necessary to disturb the speedometer drive unit. Insert a screwdriver between the brake shoes at the fulcrum pin and twist the screwdriver. Test for play by grasping the fork legs and attempting to push them backwards and forwards.

The steering head locknut will then be exposed and this should be removed. Turn the adjusting sleeve which is underneath by means of a flat piece of metal through its slots until any slackness has been taken up. The hydraulic dampers require no attention whatsoever. They are sealed during manufacture and if they suffer damage or become ineffective they must be replaced. If one cell gives a reading very different from the others it may be that the electrolyte has been spilled or has leaked from this particular cell or there may be a shortcircuit between the plates. Rectifier Battery Set only This is fitted between the toolbox and the battery in a position that ensures air cooling when the machine is moving. The best way of checking the setting of the lamp is to stand the motor cycle in front of a light coloured wall at a distance of about 25 feet. If necessary, slacken the bolts securing the headlamp and move the lamp until, with the main driving light switched on, the beam is projected straight ahead and parallel with the ground. Search Can anyone tell me the best place to find one or the other I really need to move this forward quickly as I would like to ride this basket case this year if at all possible. I see folk are selling CD copies of this book for a couple of quid if you want to go that way. I quite like having the book myself, lost count of how many times I used it, plus handy if you are struggling with the original ignition set up or carb settings etc. On this page you can learn a little bit about Mr Richards and what led to him founding the largest British Motorcycle Museum in the world. Close The Collection The Collection The National Motorcycle Museum houses the largest collection of British motorcycle's in the world with over 1000 machines from 170 different manufacturers spanning no less than three centuries! Of the 1000 plus machines in the collection there are around 850 on display at any one time throughout the museum's five huge display halls.

Close Special Exhibitions Special Exhibitions With an inventory of British Motorcycles as large as ours the displays in the five halls that make up the National Motorcycle Museum and constantly evolving and changing. However our mainly alphabetical listings are designed to whet your appetite as regards just how special a place The National Motorcycle Museum really is. Close Team NMM Racing Team NMM Racing Team National Motorcycle Museum Racing was formed in 2015 to contest the F1 race in that year's Isle of Man Classic TT when William Dunlop rode one of the museum's original and iconic rotary Norton race bikes. The team exists to showcase some of the museum's competition inventory as it was originally intended to be used back on track! Close Latest Acquisitions Latest Acquisitions During any given year any number of new machines will go on display within the five large halls that make up the National Motorcycle Museum. These machines will have come from a number of sources including new acquisitions or those from our own "stock" of unrestored machines that have been renovated in the Museum's own workshop. Please click here to learn more about the Museum's collecting policy. On this page you will find regular updates about which machines have just come into the collection. Close Meet The Team Meet The Team It's not

just the bikes at The National Motorcycle Museum that make us so special. Our friendly and knowledgeable staff are here to make your visit informative as well as enjoyable. You can discover more about everyone on the main Meet the Team page and find out more about their roles within the greatest motorcycle museum in the world. [Close Latest Videos Latest Videos](#) View some of the footage of our latest exhibitions, demonstrations and Friends of the Museum events. Featuring some of our latest must watch videos we've assembled a collection of The National Motorcycle Museum's best content.

When near to our location which is situated on Junction 6 M42 Motorway we also suggest following the brown signs. Currently, no date has been set for the reopening of the museum collection following the recent lifting of restrictions on museums and galleries. For more important information, please visit the dedicated COVID19 information page. The Museum collection now boasts some 1000 plus machines, fully restored to the manufacturers original specifications with over 850 on display at any one time. The award winning conference centre has 13 purpose built suites available, including the Wardroom, seating small parties of up to 20 guests, and the Imperial Suite which can host 1000. [Close What Our Visitors Say Testimonials](#) I was amazed at how many bikes were on display and how many different manufacturers bikes there were. We spent the day at the museum and enjoyed a delicious lunch at the cafe where the staff were lovely and helpful. For more details see the main [Museum Tours](#) page. Building on Museum founder Roy Richards incredible legacy we want to give enthusiasts the chance not only to be part of, but more importantly, to take part in some unique activities that just wouldn't be possible otherwise. [Close Offering an item to the museum](#) Offering an item to the museum Collecting is the core work that we do and new material is being added to the collections all the time. We are always grateful for offers of British Motorcycles, spares and related artefacts. For more details please see the main [Offering an item to the museum](#) page. [Close Volunteers](#) Volunteers Volunteers are an important part of our work and in return the Museum can offer a valuable and fulfilling experience to those willing assist our work. People volunteer for a wide variety of reasons and for more details see the main [Volunteers](#) page. On the [Fundraising and Donations](#) page you will find more details of how you can support us. For more details see our full events list.

[Upcoming Events](#) For more details see the main [Museum Live](#) page. The National Motorcycle Museum is a popular destination for all types of educational groups wishing to explore all aspects of the UK's great motorcycle manufacturing heritage. [Close Industry](#) Industry The Birmingham area was always at the heart of Britain's manufacturing industry and that remains as true today as it was during the golden era of the British Motorcycle Industry. [Close Close Partners](#) Specialist Services Insurance Services Insurance Services Powered by Footman James Becoming a Friend of the National Motorcycle Museum entitles you to take advantage of the incredibly low rates that we have negotiated for your Classic Motor Cycle Insurance via our Insurance partner Footman James. The beginning of the 20th century was marked by the appearance of motorcycles, and their immense popularity prompted the company to The novelty debuted on the Gold Star series.

The 350 cc power unit has increased its power to 30 hp, and Does it give something for this Bike. Or any Wiring Diagrams. Please give me an Answer, Thank You Can you help Thanks you in advance Can you help at all Thanks very much I purchased it and it was delivered completely disassembled. I am having a lot of trouble with the wiring harness. I'm not sure what year it is but it's around 2009 or 2010 I believe. Thanks in advance. Can you please help me out with this request Thanks! Many thanks It gets to hot after 10km I need a bigger jet. Please assist me and show me the correct part. The machine is brand new! The part is the REAR RIGHT TAIL LIGHT COVER Can you help Or someone that could work on it for me. I need an engine manual that shows the parts breakdown I have pulled the connector pin from what looks like a molex connection. I need to know what size wire is to purchase the male Indicators do work, horn also works. Electric start dont work just clicks and will not start of kick start any ideas please. Cant seem to find anything so this is my last resort. Any info would be amazing. Thank you so much in advance. Can someone help me Thank you The wires for these coming out This is a factory or a point of assembly issue. The connector has suffered Not something we noticed until one by one failure in dash. Wiring was not placed and secured All the wires have come out from the connector at the female side and three from the male side. Impossible to match up which goes back to what in the We need a schematic or photos of the connectors which wires to which on each side. Please help and thank you. Thank you Jiri The head gasket is blown Im guessing. It bubbles back into the reservoir when trying to start it, but no mixture in the oil. But Im having a awful I either dont know how to word it correctly or if the person I got it from changed something, but its not like the few I have ran across. So any help And also what about performance parts for it or racing parts.

Thank you for your time and patience in helping me. I bought a motorcycle in pieces, I have various parts of the electrical installation, but I do not know how to connect it. Please help I've searched the internet but can't find a diagram any help I am after a wiring diagram for a 2007 American Ironhorse Slammer. Could you please help. On duke 2019, 125cc. Any one who has the experience please help me. My headlights and turn signal lights do not work at all. It's a dirt bike. pitbike workshop Manuel or service Manuel if possible About 2000 model manual Please help I dont know if its a F22 or F11 as I purchased it used. I need a part for it lower side panel I believe it to be. Any help is appreciated. Engine. Trade Name ZNEN ZN50QT32 Vehicle Category A Start xmoto motorcycle dirt bike Got

stolen and they cut out the ignition and blew the wire harness. Thanks. Is there anyone out there who can help me out? There are still good people out there. Thanks again, Richard BartCyclesYamaha royal star venture.XVZ1300TF. And if possible colored wiring diagram. Looks identical to my kids Polaris. The aeon lost spark figure they have same wire harness. Polaris has 5 wire CDI box Aeon has a 4. I thought the mag was bad but cleaned and put back on. Took a test meter and to see if getting a signal from the rectifier and do but can only see meter jump don't know exactly what number it's coming out of the box is nothing. Mind u someone sold me an entire I have CDI boxes laying around and the new harness is a 4 wire CDI. We don't want lights or all the bull crap aeon has for wiring. But obviously can a butchered down harness just for spark work. It's a p.o.s and just wanna get running so the kids can ride. My Polaris with a dead CDI. The aeon had weak spark to begin with. But if u seen the inside of flywheel idk if a coating of crap will stop spark. Ohh just want spark or aeon will be soaked in gas and lit. I only got involved because it's my p.o.s aeon is crap. And personally I hate wiring problems.

But apparently this aeon 50cc CDI box is my match. My 2 snowmobiles are identical. One simple ground wire a mouse I think chewed but. If I could see the exact harness diagram for the aeon thunder colt 50cc. I'd be much appreciated google it. Thanks in Advance for your kindly support. Greetings Form Germany. You're sincerely, A. Pel. Any suggestions just trying to wire up battery and circuit breaker and dont know where the wires hookup. Frame 1461986, engine 353 Feky 1200286. I am struggling to find any information on this bike online but am very interested in. Bike is complete but running badly, picture below. This is a complete body and paint kit for the 1996 1999 Fat Boy.
